

## SPECIAL PURPOSE PUMP SHOTGUNS

From Armscor, these Special Purpose 12 gauge pump action shotguns offer particular characteristics for specific functions. The M-30SAS is based on the design of the Special Air Services riot gun, offering a 7-shot magazine tube, ventilated shroud, Parkerized finish, Speedfeed® 4-shot capacity buttstock and synthetic forearm. The M-30DGS includes a 7-shot stocked pump action shotgun with the addition of iron sights for slug shooting applications. Common features include:

- High grade carbon steel receiver
- Double slide action bars
- 3-inch chambers
- Damsuscepted bolt
